

## ■ Appearance

## ■ LED characteristics

Entry	Sign	MIN	TYP	MAX	Unit
Input voltage	Vin	100	230	240	VAC
Input current	Iin	1250	543	520	mA
Input power			120±5		W
Power factor			>0.9		PF

## ■ Environment

Entry	Sign	Range	Unit
Operating temperature range	Ta	-30~+45	°C
Relative to the ambient temperature		5~95	%(Non-freeze Non-condensing)

■ Net weight: 9.5kg

## ■ Attention:

1. On the features of LED, there must be some difference on the color and the brightness, although the same kind of product. The difference will be reduced after many years research, but we can not promise it is not exist, hope you understand.
2. Please make sure that the surface to be installed can bear the weight of this product while installation.
3. It is normal to produce the heat on the light body when the LED lighting.
4. LED lifespan: >50,000 hours.

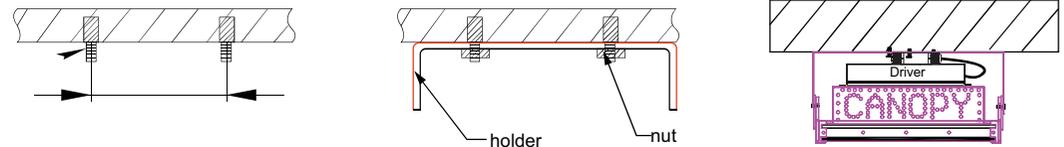

### ⚠ Some notes on security

1. The product should be in the -30°C~+45°C temperature environments, if high temperature use, will reduce its life, causing a fire.
2. The product can be used outdoors, the waterproof rate is IP66.
3. Do use the power supply specified please.
4. Connect the power cord and connector carefully to avoid the electric shocking and fire.
